

Family Legacy Media

Helping You Preserve and Pass on Your Family Legacy

Weddings, birthdays, graduations, or any special event should be transferred to DVD and I can do it for you at ***less than the price of leading competitors!***

If you have VHS or 8mm camcorder tapes that are 7 years and older you could be losing family memories!

After a period of time the film inside becomes brittle and the tape is ruined!

Transferring them to DVD is THE way to preserve them permanently!

They are much easier to watch and no more rewinding through hours of tape!

With the hit of a button you can go to the next event!

Please contact me today and I will help you preserve your memories before it's too late!

Psalm 78:4-6

We will not hide them from their children; we will tell the next generation the praiseworthy deeds of the LORD, his power, and the wonders he has done. He decreed statutes for Jacob and established the law in Israel, which he commanded our forefathers to teach their children, so the next generation would know them, even the children yet to be born, and they in turn would tell their children.
